**BEAUTIFUL SPOT
IS ARBUCKLE LAKE**

During the past three winters our visitors, hotel guests and winter residents have sought out and discovered many picturesque places within a few miles of the Park which have proved to be very interesting and worthy of repeated visits. One of these is Arbuckle lake, ten miles northeast of Avon Park and the large creek flowing out of it.

Last week H. E. Coy and family and Mr. and Mrs. Bantel and daughter got a team and drove to the lake, and spent several very pleasant hours there amidst the beauty and wildness of one of nature's favorite haunts. Mr. Coy gave us a description of things that makes us wish to see for ourselves. He told of the immense live oaks, one of which measured 25 feet in circumference four feet above the ground with a spread of branches 100 feet or more in diameter. Under this they cleared away their picnic ground and under an adjoining tree they made a place for the horses.

They took a row upon the creek and there they found the wildness of nature in all its perfection. The great cypress trees are there towering 150 feet or more above the ground, and the small trees of the same variety with their tender growth of leaf, resembling the larch of tamarack of the north, and amongst all and climbing over all the lesser growth of tree and shrub were the wild vines making a perfect jungle.

Then there were the alligators of all sizes the water moccasins and snakes of other kinds, turtles, ducks of various kinds, and water fowls of all sorts whose names they did not know.

In driving over they came across a five-foot rattlesnake close by the wagon track which they shot, and have preserved the skin.

They got home just at evening, feeling that they had enjoyed one of the pleasantest outings they had ever taken. The day was perfect, wind northwest, sky clear, mercury not above 80 degrees, air bracing, yet free from a suspicion of chilliness. In short, the conditions were perfect and the day's experiences satisfying.

Consumption

Mainly Caused by Chronic Colds and Hanging-on Coughs.

A member of W. H. White & Co. has given a good deal of time to the study of consumption, and finds that comparatively few cases are hereditary.

Mostly all are caused by neglected coughs and colds, which gradually weaken the whole pulmonary system, and before people realize it there is a diseased spot in one lung; spitting blood soon follows and eventually a collapse.

Such an unnecessary end, such a pity, for all could have been so different. We know of hundreds of cases where our wonderful cod liver oil preparation, Vinol, has saved a young and valuable life, which without it would have been sacrificed. We have letters from people who were given up to die, and who positively state that Vinol, and Vinol alone, saved their lives when all else had failed to help them.

Vinol is able to cure hanging-on colds and stubborn coughs, because it is the most perfect preparation of cod liver oil ever compounded; it contains no oil or grease to upset the delicate stomach, yet it does contain every one of the fifty odd medicinal curative elements actually taken from fresh cods' livers, and we freely and publicly state that we will supply all the Vinol we think necessary to cure any case of chronic coughs, hanging-on colds or weak and debilitated conditions of Pensacola people and pay for the medicine ourselves if it fails to give satisfactory results.

How can we express our faith in Vinol more emphatically? W. H. White & Co., Druggists.
